

Problem with Displaying Thai Characters

| ASCII | Unicode | Correct Characters displayed | Wrong Characters displayed |
|-----------------|--------------------|------------------------------|----------------------------|
| [164][232][211] | [0E04][0E48][0E33] | คำ | คำ |
| [182][233][211] | [0E16][0E49][0E33] | คำ | คำ |
| [185][234][211] | [0E19][0E4A][0E33] | น้ำ | น้ำ |
| [205][235][211] | [0E2D][0E4B][0E33] | อ่า | อ่า |

The problem (we found) have happened when there are combination of :

[Alphabetic][Tone marks][Vowels] (typing in the correct sequence) with the value of "Vowels" always is "Sara am" :

ำ

Note: Please take a look at Thai alphabet reference:
